**Michele C. Quinn Fine Art Advisory Opens
Its New Salon in Downtown Las Vegas**
Inaugural exhibition features unique photographs by German artist Vera Lutter

(April 10, 2008) Michele C. Quinn Fine Arts Advisory is pleased to announce the opening of an exhibition of unique photographs from Vera Lutter's new series ***Venice Portfolio II***, on view April 11 through May 16, in its new salon located at 620 South 7th Street, two blocks east of Las Vegas Boulevard between Garces and Bonneville avenues.

In ***Venice Portfolio II***, a suite of six gelatin silver prints, Lutter captures the Italian city by using the technique of camera obscura, often inhabiting the camera during the long exposures for hours, days or even weeks. Camera obscura works on the premise that when light passes through a small hole into a darkened chamber it produces an inverted image on the opposite wall, thereby projecting Lutter's inverted subjects onto photographic paper, allowing each one to be developed as a unique negative. Water appears as solid ground; buildings and boats – once tangible – become ghosts fixed on the print. Our preconceived notions of what Venice is, is weakened; as viewers we must delve into the complexities of how Lutter creates a fleeting evanescence of structure, volume, space and light.

Born in Kaiserslautern, Germany in 1960, Lutter began training as a sculptor at the Munich Academy (1984), where she received a DAAD grant before moving to New York City. It was in New York that she began using photography as an artistic outlet, completing her photographic studies at the School of Visual Arts in New York City (1993-1995). Her work has been exhibited extensively in the US and abroad, including the Kunsthalle, Basel; the Dia Center of the Arts, New York; and the Whitney Museum of American Art, New York. Her work is also included in important public and private collections, including the Metropolitan Museum of Art, the Museum of Modern Art and San Francisco Museum of Modern Art.

This inaugural show launches Michele C. Quinn Fine Art Advisory's 2008 exhibition program, which will also feature *Octagon: The Installation*, an exhibition of more than 20 chromogenic prints by photographer Kevin Lynch documenting Ultimate Fighting Championship, opening Memorial Day weekend; and the *Art Handlers Group Show*, featuring work by MCQ Fine Art Advisory staffers past and present, including JW Caldwell, Chad Brown and David Ryan, opening in July.
